

# TRANSCORE CUSTOMERS

- To ensure your order is processed in a timely manner. Before submitting your purchase orders, double check the information for accuracy [part number(s), quantities, MOQ's, pricing, terms, bill-to/ship-to addresses as well as the vendor address].  
Email PO's to: [orderentrybox@transcore.com](mailto:orderentrybox@transcore.com)
- Tag Order Forms are required with tag purchase orders. Please complete all sections of the tag order form, provide the reader part/serial numbers of all readers being used with the tags and lastly, sign & date the form.
- The most current versions of the tag order forms and instructions are located on our webpage.  
<https://www.transcore.com/orderacknowledgement>
- Exciting News! We have transitioned to the Micro Mini Windshield Sticker Tags. The Micro Mini WST supports Super eGo (SeGo) and American Trucking Associations (ATA) protocols. The tag is designed for use in all markets currently using the larger eGo Plus sticker tags, including parking access, fleet/trucking and security access. The Micro Mini WST, when paired with TransCore readers, also supports the advanced security offered across all the eGo Plus WST products. Legacy systems operating as eGo-only readers (Encompass 2101) are not compatible with this new tag; however, TransCore will work with customers to ensure a smooth transition from the old tag to the new Micro Mini. We are committed to providing our customers the best product and service, working with customers to trade-in legacy systems for new, compatible systems.
  - eGo Plus Micro Mini WST – Full Frame: 13-3290-001
  - eGo Plus Micro Mini WST – Half Frame: 13-3250-001

## WE APPRECIATE YOU!
